CHOMETZ ON PESACH

Chometz is any substance from one of five cereal grains (wheat, barley, oats, spelt, or rye), that contains leavening, caused by its prolonged contact with water or other liquids. It is important to note that Chometz/Se" or does not gtranslate into "yeast". It refers to leavening: namely self-rising from a sour-dough starter type of process. The prohibition of Chometz on Pesach includes "Chometz Gomur" (unadulterated Chometz) and "Ta'aruvav Chometz" (a mixture containing real Chometz).. The following are actual Chometz: bread, cake, cereal made from wheat, oats or barley, cookies, farfel mix, some licorice, pasta, pretzels, rolled oats, wheat gluten, wheat protein. Some have the same custom concerning beer and whiskey.

KITNIYOS

Due to the stringency of the prohibition of not eating Chometz on Pesach, Ashkenazic Jews, as well as many Sephardim, have developed a custom not to eat kitniyos (legumes) on Pesach other than for infants and under other special circumstances provided that the foods are prepared in separate utensils. Kitniyos includes beans, soy, rice, peas, and corn among others: (see below). Sephardim, whose minhag (custom) permits them to eat rice on Pesach, must be careful to determine that the rice is additive-free. Many Sephardim have the minhag to check the rice three times, as well as to check for other grains that may be mixed in. In any case, open bins in stores should not be used. This year, again, the Star-K Kashrus organization is certifying Carolina Mehadrin Rice for use for Sephardim on Pesach.

A reliable source of acceptable products following this Sephardic custom is the Sephardi division of the J.S.O.R. at (732) 531-4872 or WWW.JSOR.ORG (be aware that a number of lists exist for Sephardim that are extremely misleading and erroneous).

The following are considered kitniyos or treated as kitniyos according to many opinions:

Alfalfa Sprouts, Anise, Ascorbic Acid (May be Chometz), Aspartame (Nutrasweet), BHA & BHT (both in corn oil), Beans, Bean Sprouts, Black Eyed Peas, Buckwheat, Calcium Ascorbate, Canola Oil, Caraway, Cardamom, Citric Acid (May be Chometz), Chickpeas, Confectioners' Sugar, Coriander, Corn, Corn Syrup, Corn Oil, Cumin, Dextrose, Edamame, Emulsifiers, Fennel Seeds,

Fenugreek, Flavors, Flax Seeds (Linseed), Glucose, Green Beans, Hemp (unchecked), Hydrolyzed Vegetable Protein, Isolated Soy Protein, Isomerized Syrup, Kasha, Kimmel, Lecithin, Lentils, Licorice, Lucerne, Lupine, MaltoDextrins (Chometz or kitnios-derived), Millet, MSG, Mustard, Peas, Peanuts (and Peanut Oil) Peas, Poly-sorbates (May be Chometz), Popcorn, Poppy Seeds, Pumpkin Seeds, Rapeseed, Rice (Vitamins added may be Chometz), Sesame Seeds, Snow Peas, Sodium Erythorbate, Sodium Citrate (May be Chometz), Sodium Erythorbate (May be Chometz), Sorbitan, Sorbitol (Could be Chometz if outside the U.S.), Soybeans, Soy Oil, Corn Oil, Soy, Stabilizers, Starch, String Beans, Sunflower Seeds, Tofu, Vegetable Oil, Vitamin C (may be Chometz), Wild Rice, Xanthan gum (May be Chometz). NOTE: Flax seed, chia and Hemp seed are not actually kitniyos and can be used after checking for contamination of other grains.

The Following are not considered Kitniyos, buy may require special checking for Chometz Grains Mixed in:

Anise, Carob, Chia Seeds, Coriander, Cottonseed, Cumin, Guar Gum, Locust Bean Gum, Safflower, Saffron.

GOING AWAY FOR PESACH

One must sell his/her Chometz regardless of where they are for Pesach. This is the case even if one left home 30 days before Pesach and no one will be in the house during Pesach. It is necessary to inform the Rabbi selling your Chometz as to the location of the Chometz and to your location during Pesach so that he can know the proper time zones of selling and buying back the Chometz for you.

If a person leaves home before Pesach, within 30 days of Pesach, the night before his/her departure should do a regular Bedikas Chometz without a Bracha and recite "Kol Chamira" over the Chometz found in the house. Note: Kol Chamira should always be said in a language that one understands, as this is not a Tefilla, but a declaration. The alternative to an early Bedika is to appoint a Shaliach (messenger) to do a regular Bedikas Chometz with a Bracha on the proper night of Bedikas Chometz.

A guest in a hotel, who has Chometz in the hotel on the night of Bedikas Chometz should conduct themselves as they would at home, performing a full Bedika with a Bracha. It is the minhag to carefully put out pieces of Chometz before beginning the Bedika.

BITUL (ANNULMENT) OF CHOMETZ

During the year, any non - Kosher ingredients which are inadvertently mixed with Kosher ingredients may be Halachically (according to Jewish law) fit to eat. The reason for this leniency is that they are declared "Batel Beshishim" (annulled in sixty i.e., the Kosher food is at least sixty times greater than the non-Kosher, thus making the non-Kosher food annulled). This rule is true regarding Chometz on Pesach only if the mixture was made before Pesach.

Note: Lactaid drops may contain Chometz. Therefore, if needed they should be added to milk before Pesach to have the Chometz annulled in sixty times the amount of milk, applesauce etc. Before Pesach. This cannot be done once Pesach has started.

HANA'AH (BENEFIT) FROM CHOMETZ

During Pesach, we may not derive any sort of benefit from Chometz. Therefore, Chometz may not be sold or used, even in business transactions or as pet food. Even some cosmetics must be Chometz-free. Generally, there is no problem with the following products if they are not organic in nature, and do not contain any grain by - products: Acne Aid, Mineral Oil, Baby Cream, Baby Oil, Eye Liner, Mascara, Rouge (Powder), Nail Polish, Talcum Powder, Stick Powder Deodorant, and Vaseline.

MECHIRAS (SELLING OF) CHOMETZ

"Mechiras Chometz" is the sale of Jewish-owned Chometz to a non- Jew before Pesach. One must sell Chometz which is in their regular home, vacation home, office etc. Since this is a very serious sale, it should be done only by a person skilled in the Halachas of selling Chometz.

The Following Are Considered Chometz Gamur (real Chometz): Beer, Bread, Cake & Cookies, Cereal with primary ingredient of wheat, oats or barley, Cream of Wheat, Couscous, Farfel, Licorice (when wheat is in the ingredients), Oatmeal (Instant, Regular Baby Cereal), Pasta, Pretzels, Rolled Oats, Wheat Gluten/Wheat Protein, Yeast (Brewer's).

CHOMETZ SHE'AVAR ALAV HAPESACH (BUYING CHOMETZ AFTER PESACH)

Due to the severity of the "Issur" (prohibition) of Chometz, Chazal reinforced the sale of Chometz with a fine. This fine was levied on any Jews who kept Chometz

in their possession or ownership during Pesach. This is called "Chometz She'avar Alav HaPesach." Jewish law requires that if a Jew owns Chometz on Pesach, no Jew is allowed to eat that food, even after Pesach.

Some common products that one may assume are Chometz,(but are actually not), and therefore may be purchased in a store that did not sell their Chometz are the following... baker's yeast, cosmetics, dry cake mixes, kitniyos, glue containing Chometz, ketchup, mayonnaise, mustard, pickles, medicine containing Chometz, maltodextrin, maltose, malt flavoring, food coloring, flour, extracts, raw pearled barley, vanilla and vitamins/medicine containing Chometz.

Rav Moshe Feinstein ZT"L, in his sefer "Igros Moshe", states that if a Jew sold his Chometz for Pesach, and then kept his store open during Pesach and continued to sell items of Chometz, one is nevertheless allowed to buy from that store after Pesach.

A Jew may buy from the following stores immediately after Pesach: 7-Eleven, 99 Cent Store, Albertsons, Aldi, B's, Bev/Mo, Big Lots, Bristol Farms, Coffee Bean, Costco, CVS, Dollar Tree, Erewhon, Food4Less, Food Lion, Fresh & Easy, Gelson's, Jetro/ Restaurant Depot, Jon's, K-Mart, Nuts & More, Petco, Petsmart, Ralphs/Kroger, Rite Aid, Royal Farms, Sadaf, Safeway, Sam's Club, Smart & Final, Smith's, Target (California), Trader Joe's, Vons/Pavillions, Walgreens, Walmart, Wegmans, Whole Foods, Wine & Liquor Depot

In addition, all reliably certified Kosher stores are fine to shop in for Chometz after Pesach. Reliably certified Kosher stores all sell their Chometz before Pesach.

Note: Rabbi Elmaliach, the Rabbi in charge of Kashrus at Ben Gurion airport, reports that the stores at area D7 in the airport are clear of Chometz She'avar Olav Hapesach. There is a restaurant in the Ben Gurion airport called "Aroma Espresso Bar", under Chug Chosom Sofer Hashgacha and it is fine to eat there after Pesach. The other stores in other areas of the airport had their Chometz sold but were open on Pesach and continued to sell Chometz during Pesach. Some poskim allow purchases from such establishments after Pesach, while some do not. **Please note** that many of the products sold in Ben Gurion airport which are certified Kosher in the U.S. are not kosher there due to being produced in other countries without kosher supervision

KASHERING (MAKING UTENSILS KOSHER)

Utensils that are used during the year for Chometz may not be used to prepare food for Pesach unless they are properly Kasher'd.

Cloth tablecloths (not plastic) and towels used year-round should be washed thoroughly and may then be used for Pesach.

Surfaces upon which only cold Chometz has been placed during the year, such as refrigerators and pantry shelves, should be thoroughly washed and rinsed to prepare them for Pesach use. Surfaces which are used for hot Chometz during the year, in addition, whenever possible must be Kasher'd by pouring hot water on them. Surfaces that cannot be Kasher'd (such as formica and ceramic tiles etc.) should first be cleaned thoroughly and then covered with non-absorbent material (i.e. contact paper, cardboard or multiple layers of aluminum foil).

THE DIFFERENT LEVELS OF KASHERING:

Libbun Gomur - torching or making the metal glow.

Libun Kal - heating the metal until it can burn paper on the other side.

Hagolo - dipping in boiling water.

Eruy Roschim - pouring boiling water. (Note: most steamers are insufficient for Kasher'ing)

The general rule is that we undo as we did. If something uses straight dry heat (i.e. BBQ) we need to torch it or use self-clean in an oven which is the same. Soup pots are used with liquid, so they are kasher'd with liquid in boiling water etc.

Milui V'Eirui – Soaking drinking glasses for 3 days in cold water, and changing the water every day.

TO KASHER:

Electric range: first scour it thoroughly. Then, turn it on to the highest temperature setting for 15 minutes, or until it gets red hot.

Enamel glazed stove tops should be covered during Pesach.

Gas grates should be put in the oven for Kasher'ing or torched. Most cover with foil if not torched.

Glass-top stoves can be Kasher'd in

the area of the burners. They should be turned to high for 15 minutes. The areas in between cannot be Kasher'd. Some find it practical to change the entire glass top for Pesach.

A **non-self-cleaning oven** should be cleaned with a special solution, such as "Easy Off" and not used for 24 hours. After this time, it should be turned on to the maximum setting for one hour. This will Kasher the oven, but not the broiler.

The **broiler pan** cannot be Kasher'd, therefore, it is usually not used for Pesach. If the broiler pan is replaced, the broiler can be Kasher'd in a similar fashion as the oven. If one desires to Kasher it, "Libbun" (glowing hot) is required (i.e., by using a torch).

A **self-cleaning oven** needs only to go through one self-clean cycle. It can be on the shortest cycle of your self-cleaning oven.

Many **microwave ovens** (those whose plastic walls do not exceed 120 degrees during cooking) without browning elements or convection can be Kasher'd by first cleaning them and not using them for 24 hours, and then putting a new glass tray, or cardboard on the bottom. Afterwards, a cup or bowl of water should be boiled inside.

A **barbecue grate** must be Kasher'd with "Libun Gamur" which includes torching any surface that food comes in contact with, in addition to cleaning and burning out the rest of the barbecue as one would an oven. In addition, the coals or lava rock should be replaced. Often, it is more practical to purchase a new one for Pesach or at least to replace the grate.

A **stainless-steel sink** is Kasher'd after it has first been cleaned, and then kept free from hot water usage for 24 hours. Then boiling water must be poured over its entire surface. **Porcelain sinks**, however, may not be Kasher'd. They should be fully lined with a tin insert, contact paper, aluminum foil, and/or a Pesach basin insert.

Dishwashers may be Kasher'd only if they have a stainless-steel interior. All racks must be changed. After waiting 24 hours, run a complete cycle with soap. All rubber or plastic parts must be replaced as well.

Metal utensils that are used with liquid (soup pots, etc.) may be Kasher'd by first cleaning them, not using them for 24 hours, and finally, completely immersing them in a Kasher'd pot full of boiling water for 15 seconds, followed by rinsing them in cold water immediately upon removal.

They should be Kasherred one at a time. An alternate method, particularly useful for larger pots, is to set aside the pot for 24 hours, after which time it should be filled with water and then be brought to a boil. A glowing hot item, such as a rock, should then be placed inside, allowing the hot water to spill over the sides.

Braces, bite plates and retainers should be brushed thoroughly before Pesach.

Countertops that cannot be Kasherred:

Formica, Plastic, Silestone, Composite Stone and Corian countertops may NOT be Kasherred for Pesach according to many Poskim, and therefore, should be covered.

Caesarstone countertops may NOT be Kasherred for Pesach according to many opinions, as they are composed of only 93% stone.

Countertops that may be Kasherred:

Caesar Stone, Granite, Marble, metal, pure stone, or Stainless-Steel countertops may be Kasherred by pouring boiling hot water (not steam) on them (Eirui). Preferably this will be done together with an Even Melubenes (hot stone or brick) that the hot water is poured over. Some (such as the O/U and cRc) allow this procedure for composite stone, such as quartz etc. The Star-k does not allow kashering composites or plastic counters. Wood can be kasherred with sanding. Many poskim do not allow kashering Formica or plastic counter tops. They should be covered well (after cleaning). All agree that ceramic tile counter tops cannot be kasherred and must be covered.

The following materials are subject to differing opinions if they can be Kasherred:

China, Corelle, Corian, Cork, Corning ware, Duralux, Earthenware, Enamel Coated Formica, Melmac, Nylon, Plastic, Porcelain, Pyrex, Synthetic Rubber, Teflon Coating. Some of the above are agreed upon that they cannot be kasherred. Ask your local rabbi.

Note: Steam cleaners most often may not be used for Kasherred purposes, as Kasherred must be done with boiling water (212 F) as steam is insufficient.

Water filter - change the filter.

Kitchen Items that may not be kasherred

i.e., bread machines, china, colanders, corelle, corning ware, graters, mixers, sandwich maker, silverstone, teflon, toaster oven, waffle iron, urn used to heat Challah, etc., should be washed thoroughly and be put away in a completely sealed off area or container until after Pesach.

Kasherred a Nespresso Machine: Please **Note:** The steps below are NOT intended for milk frothers or machines that use milk. It is ONLY for machines that make pure black coffee and are pareve.

1. Clean the outside of the machine using a new sponge and a cleaning agent (soap, liquid detergent etc.)
2. Make sure there is no pod in the machine
3. Fill the water canister
4. Turn the machine on
5. Use the Nespresso Descaling kit, ensuring there is no residue buildup
6. Run a cycle without a pod until the water that comes out is clear. This will clean the inside parts of the machine.
7. Do not use the machine for 24 hours.
8. After being left out of use for a full 24 hours, fill the canister to the top again.
9. Turn the machine on.
10. Kasher the machine by running a cycle without a pod once again.

Kasherred A Keurig Coffee Maker: Please note: These instructions are for those who Kasherred plastic. For those who do not Kasherred plastic, the coffee maker should be put away for Pesach.

1. Clean the coffee maker and do not use for 24 hours.
2. Remove the K-Cup holder and perform Hagalah (boiling in water) or iruy (pouring boiling water over it) on the K-cup holder.
3. Run a Kasher for Pesach K-cup in the machine (this will Kasherred the top pin).

EREV PESACH ON SHABBOS (next occurring in 2045)

Due to not being able to do our normal routine on Erev Pesach this year as it is Shabbos, we change a few ways that we do the Mitzvos of Erev Pesach.

Bedikas Chometz: The search begins **Thursday night, 4/10**. Many have the Minhag to place ten pieces of bread or crackers in a bag before the search is started.

Sof Zman Achilas Chometz: Since we are allowed to eat Chometz still on Friday night as well as Shabbos morning, extra care is used to eat them away from the house. Manny wash and eat the Challah in their backyard, brush themselves off, and eat a Kasherred L'Pesach meal in the dining room.

Biur Chometz: We burn our Chometz on Friday at the normal time of Biur (see listed times). This is to maintain the Minhag of burning the Chometz, which of course we cannot do on Shabbos. We do not at this time say Kol Chamira. However since we are allowed to eat Chometz still on the rest of Friday and Shabbos morning, we need to separate any chometz we have that we will be eating before burning the symbolic Chometz on Friday. On Shabbos we will dispose of any chometz left in our possession at the time for Biur. We should be careful that not much is left over for Shabbos and that it is mostly eaten. Any leftover Chometz should be destroyed by adding a chemical or flushing. Kol Chamira should now be said.

Fast of the First Born: This year the fast falls on Thursday, 4/10. A Sium is made to negate the fast.

Siyum: Males who are first born and do not wish to fast on Thursday should attend a Siyum in the morning and eat at the meal following it. This meal is called a Seudas Mitzvah. It is generally held right after Davening.

Biur Chometz: The burning of the Chometz left in one's possession, including the Chometz found the previous night, must be destroyed or removed from a Jew's possession (a public garbage is fine but not usually a private one) by the end of the fifth hour on Shabbos morning (4/12). Please see the time chart for the exact latest time.

Selling of the Chometz: This must be done by Friday 4/11, no later than the time of Biur Chometz (see times to remember)

EATING ON EREV PESACH

Consumption of Chometz is prohibited on Erev Pesach, from a third of the day and after- this is usually counted four proportional hours from daybreak (see times to remember). It is also forbidden to eat Matzo, or anything baked with Matzoh on Erev Pesach. This prohibition includes egg Matzoh. This is to ensure that one will eat the Matzo at the Seder with a "hearty appetite". This prohibition includes cakes and cookies made from matzo meal. However, cooked Matzo products, such as knaidlach (Matzoh balls) are permitted. Non-Gebrochts products are suitable for this time- period. All foods should only be eaten in moderation from the ninth hour in the day and on, in order to have an appetite for the Seder. Imitation Matzo made from Tapioca and Potato ingredients is fine for Erev Pesach.

SELECTED LAWS & CUSTOMS

One should prepare everything (for the first Seder) on Erev Pesach in order that the Seder should begin immediately upon arriving from Shul. This includes setting the table, etc. (Note: we cannot prepare for the Seder on Shabbos) It is a custom that pillows should be prepared for leaning on during the Seder. Women are not required to recline; however, male children are. It is also a custom among some that the head of the household wears a Kittel during the Seder. In most places, the custom is that only the head of the household has a Seder plate and the three Matzos. Some, however, have a Seder plate and Matzos for each man present at the Seder. When only the head of the household has a Seder plate, he must provide for everyone at the Seder from his plate. Since there is usually not a sufficient amount of Matzo, Marror and wine to ensure that everyone present (male and female alike) has the required amounts during the Seder, additional Matzo, Marror and wine should be placed on the table for supplementary use.

THE SEDER PLATE

One may not use **MARROR** (to fulfill the Mitzvah of Marror) that was soaked for 24 hours or longer. Soaking this long is called pickling and is Halachically considered cooked. One may only use uncooked vegetables for Marror. (Do not lean when eating Marror.)

CHAROSES can be made of ground apples, pears, pomegranates, dates, figs, walnuts, almonds, ginger and cinnamon, to which wine is added. Recipes may vary according to tradition.

KARPAS is any vegetable upon which a Brocho of "HaAdama" is made, that may be dipped in salt water or vinegar, and that may be used on Pesach. Parsley, celery, and potatoes are often used as Karpas.

ZROA is a piece of meat which is roasted over the fire. Most people use a chicken neck or wing for this purpose.

BAITZA is an ordinary hard boiled or roasted egg. If one forgot to roast the Zroa or Baitza on Erev Pesach, and had to do it at night, he must eat the egg before sunset the next day.

THE ARBA KOSOS (FOUR CUPS OF WINE) It is preferable that the wine used at the Seder be red in color. For those who cannot drink wine, grape juice may be used (consult your Rabbi). If one must drink grape juice the 64 oz glass bottles or any other size that say on

them non-Mevushal are preferable to the standard grape juice that has been cooked. Nevertheless, one should make every effort to drink wine at the Seder. It is preferable to add at least some wine to the grape juice.

Each cup of wine should contain at least 3.3 fluid ounces. It is preferable to drink the entire cup, or at least half of it, for each of the four cups. Due to this one should not use a very large cup as this will necessitate drinking a large amount for each cup.

Men must consume all cups of wine while reclining on their left side. If one drank either of the first two cups without reclining, he must drink again without a Brocho.

Note: Many Kosher wines (and some brands of grape juice in the 64oz. bottles) are not cooked and state "non-Mevushal." Therefore, care must be taken as to who handles them. (Most bottles that are cooked say "Mevushal" in English or Hebrew on the label).

Note: Many low-alcohol wines are now available. Some are pure wine while others are a mixture of wine and grape juice as indicated.

MATZOH

Only **Shmurah Matzoh** (watched over from rising), which is made of grain that has been guarded against fermentation from the time of harvest, should be used for the Mitzvah of eating Matzoh at the Seder. Both hand and machine Shmurah Matzoh are acceptable. A person should own the Matzoh they are using for the Mitzvah. Over the past many decades there have been many opinions given as to the merits of hand versus machine Matzoh. Most use either one with proper Hashgacha.

Shmurah Matzoh has been watched in most cases from the time of cutting of the wheat to protect from unwanted moisture, which may make it rise.

Eighteen Minute Matzoh is run on machines that are cleaned every 18 minutes to prevent any possibility of the dough rising.

Regular Pesach Matzoh has been baked on a machine in under 18 minutes, but the machine will run all day without cleaning in between runs.

Matzoh Ashira is any Matzoh that contains products other than flour and water, such as grape juice or apple juice. The consumption of Matzoh Ashira is prohibited for most

people throughout Pesach. Included in this category are: Matzoh which was kneaded with fruit juice, egg matzoh, tea Matzoh, honey and spice Matzoh and some chocolate covered Matzoh. However, this prohibition does not apply to infants or people who are ill. When in doubt, consult your Rabbi.

Even one who is allowed to eat Matzoh Ashira, cannot fulfill their Mitzvah of Achilas Matzoh (eating Matzoh) with it.

Gluten Free Matzoh - A limited amount of Oat and Spelt Matzoh is produced as Shmura and regular (non-Shemura) for those who cannot tolerate wheat Matzoh for medical reasons. One can fulfill the Mitzvah of eating Matzoh at the Seder with such Shmura Matzoh. More information concerning this product can be found at www.Glutenfreeoatmatzos.com or call (732) 364-8757.

Gluten Free Shehakol "Matzoh Style" - This product is made from tapioca with a bracha of "Shehakol". It has no relation to Matzoh other than artificially made to "look" like a Matzoh. Gefen and Yehuda Matzoh companies, as well as some others, manufacture imitation Matzoh. This is an excellent product to eat Erev Pesach and any other time one does not wish to consume Matzoh. (it is also a wonderful imitation Matzoh that can be eaten out of a Sukkah since it is not real Matzoh). Obviously, this product cannot be used as a substitute at any time for real Matzoh.

MEDICINE

Most prescriptions can be filled with Kosher for Pesach medicine. For information on the Kosher status of your medicines, contact your local reliable Rabbi. In the Los Angeles area, Syds Pharmacy, located at 7111 Beverly Blvd., carries a wide variety of Kosher for Pesach vitamins and medications. Call them at (323) 933-8571.

Rabbi Bess of Los Angeles has compiled the most detailed reliable list in the U.S. He can be reached at (323) 933- 7193. Rabbi Bess together with the Star-K publishes the Passover Directory with this information. Since some prescriptions, unfortunately, are not available with Kosher certification, we will mention some guidelines for those who must take medicine on Pesach.

1. If one suffers from an illness through which one's life may become endangered, one may eat Chometz on Pesach and may use any medication needed to avoid a life-threatening situation. This Chometz should

be owned by a non- Jew.

2. If someone is ill, but his life is not endangered, he may not eat Chometz on Pesach. However, he may take Chometz medicine under certain circumstances as long as he does not take it in the normal way (i.e., a pill without a cup of water). A Rabbi should be consulted if the need for such medication should occur.

3. Generally speaking, cough syrups and other liquid medicines may contain grain alcohol and may not be used on Pesach. When one must take medicine during Pesach, his/her doctor should be asked to prescribe medicine without alcohol or capsules.

Many over the counter medicines require no special certification to be used on Pesach. Consult your Rabbi for specific questions. For a complete listing of this year's Kosher for Pesach vitamins (as well as year-round vitamins) go online to www.koshervitamins.com.

Note: All Freeda Vitamins and FNP supplements are produced all year round in a Chometz-free facility. However, some may contain Kitniyos. Email Freeda at cs@freedahealth.com or call them at 800 77-3737 for more information on their Pesach products.

TOILETRIES

Rabbi Bess lists the following ingredients as possible Kashrus issues connected to Pesach: Amino Peptide Complex, Amp-Isostearoyl Hydrolyzed Wheat Protein, Avena Sativa Flour, Avena Sativa Kernel Protein, Barley Extract, Beta Glucan, Disodium Wheatgermido Peg-2 Sulfosuccinate, Hordeum Vulgare Extract, Hydrolyzed Wheat Gluten, Hydrolyzed Wheat Protein, Hydrolyzed Wheat Protein PgPropyl Silanetriol, Hydrolyzed Wheat Starch, Hydroxypropyltrimonium Hydrolyzed Wheat Protein, Oat Beta Glucan, Oat Extract, Oat Flour, Phytosphingosine Extract, Prolamine, Sodium Lauroyl Oat Amino Acids, Stearyldimoniumhydroxypropyl Hydrolyzed Wheat Protein, Triticum Vulgare, Triticum Vulgare Flour Lipids, Triticum Vulgare Germ Extract, Triticum Vulgare Germ Oil, Wheat Amino Acids, Wheat Bran Extract, Wheat Germ Extract, Wheat Germ Glycerides, Wheat Germanidopropylidmonium Hydroxypropyl Hydrolyzed Wheat Protein, Wheat Germ Oil, Wheat Protein, Wheat Sphingolipids.

FROZEN VEGETABLES

There are many issues concerning the use of frozen vegetables for Pesach. Most large companies, such as S&W, Green Giant and Bird's Eye, purchase their vegetables from many different processors. Due to increased competition in this industry from Mexico and Guatemala, many packers are processing pasta and vegetables in the same blanching equipment when it is not being used for pure vegetables. This is done at temperatures between 100 to 200 degrees, thus making the machinery Halachically unacceptable for Pesach use. However, some companies use steam blanchers, which are not usable for pasta. Bodek, Garden Pure, as well as others carry many frozen vegetables which are certified for Pesach.

FRESH VEGETABLES

In general, fresh vegetables do not pose a special concern for Pesach. However, fruits and vegetables from Israel require that Terumos and Maasros be taken. Leafy vegetables require the same level of inspection for insects as during the rest of the year. This is a particular concern for many who use romaine lettuce for the Mitzvah of Marror. To avoid this problem, some choose to use romaine stalks only, which are easier to rinse and check for insects. There are romaine lettuce stalks and other produce certified for Pesach that are not checked for insects. One needs to make sure that the Hechscher covers both the Pesach and insect issues. This year additional care must be taken that no Shmitta issues exist.

SODA

Only Kosher for Pesach certified soda that replaces the corn syrup with cane sugar and has certified formula can be used..

Note: Commonly, Coke and others will be reliably certified for Pesach. The bottle, however, may list "corn syrup/sugar" as an ingredient. As long as the product bears a reliable Pesach certification, the soda has been reformulated to meet all Pesach concerns.

Note: Coke is being produced for Pesach in California this year. Coke will be available in Boston, Baltimore-Washington, Miami, and Atlanta as well. All the Passover Coke items will be marked with a distinctive yellow cap in addition to the O/UP symbol on the cap or shoulder of the bottle.

EGGS

The Minhag (custom) is to buy eggs that were laid before Pesach. This is because chickens are usually given feed which is Chometz.

Note: Eggs do not require a Hechscher, even when pasteurized.

MILK

Due to the modern pasteurizing processes used in the milk industry, many nutrients are inadvertently removed.

Governmental regulations dictate that Vitamin D, and in some cases, Vitamin A be added to milk before its sale. The amounts added are very minute. Inasmuch as Vitamins A and D are often derived from Chometz or kitniyos, and since mixtures of even small amounts of Chometz on Pesach are not "batel" (annulled), we must be cautious concerning milk which contains these additives.

Another matter of concern is the processing equipment. Milk companies often produce chocolate milk on the same equipment that they use for their plain "white" milk. The chocolate milk may contain malt, which is made from grain. In order to avoid these problems, two steps are necessary. First, it is necessary to make sure that the dairy company whose milk we purchase for Pesach processes only plain "white" milk and not chocolate milk. Secondly, the milk that we need for all of Pesach must be bought before Pesach. By doing so, the vitamins in the milk are deemed "batel" (annulled) from before Pesach (since Bitul works if the mixture occurs before Pesach), and therefore, may be used on Pesach. Whenever possible, certified Kosher for Passover milk is preferable.

MILK SUBSTITUTES

Many people i.e., infants, elderly, those who are ill etc. often warrant consuming kitniyos but not Chometz. The following products (partial list) are free of actual Chometz:

Infant Formula - Alsoy, CVS, EnfaCare, Enfamil, Enfapro, Giant, Heinz Nurture, Isomil, Mother's Choice, Nestle Good Start, Next Step, ProSobee, Rite Aid, Safeway Select, Similac, Target, Walgreens, Wegmans'.

Soy Milk - 365 Everyday Value (original, Light and Unsweetened), Fit & Active, Hy-Vee, Market Basket (unsweetened), Meijer, Nature's Place, Nature's Promise Organic,

Shoprite, Stop & Shop.

Almond Milk - 365 Everyday Value, Kroger, Market Basket, Meijer, Nature's Place, Ralphs, ShopRite.

Rice Milk - Original Clearly Organic, Harris Teeter, Krasdale Organic, Meijer, Nature's Promise, Rice Dream (unsweetened only), ShopRite.

Note: all of the above are best in liquid form and bought before Pesach.

OIL

Oil from olives, palm, coconut, and walnuts are acceptable for Pesach with a proper Kosher for Pesach Hashgacha. This is because the fruit they are extracted from is not kitniyos. Minchas Yitzchok (III:138:2) suggests that cottonseed oil is kitniyos, but in a subsequent teshuva (IV:113:3), he reconsiders this position. In the U.S., cottonseed oil is generally not considered to be kitniyos but in Eretz Yisroel there are those who refrain from using it.

Extra Virgin Olive Oil with reliable Hashgacha (year-round) is recommended for Pesach use, even without special Pesach certification. The same applies to many virgin coconut oils (see listings)

SUPERMARKETS

One of the major conveniences that is enjoyed in many parts of the United States, is being able to shop in our large National supermarket chains for Kosher items all year and in particular, for Pesach. Along with this convenience, however, comes a responsibility to check well for the Pesach certification on each item we buy. It is not uncommon for non-Pesach items to be found on the Pesach designated shelves. Be careful to only buy in original packaging and not items repacked.

PET FOOD

One of the many challenges of Pesach is finding Halachically permissible pet food. There are two separate Kashrus issues about which one should be aware. One is related specifically to Pesach, and the other related to the rest of the year as well. The year-round problem concerns the mixing of milk and meat. It states three times in the Torah "Lo Sevashel G'dee Bachalev Imo". Literally, this is a prohibition against cooking milk and meat together. However, from the fact that the Torah states this three

times, and uses the term Gedee (kid), the Gemorrah (Talmud) in Chulin (113A 115B) explains this to mean that milk from any Kosher species and meat from any Kosher species (i.e. beef mixed with cow's milk or goat's milk etc.) are forbidden to: a) be cooked together, b) be eaten together, c) derive benefit or pleasure from them. These prohibitions (from the Torah) do not apply to poultry or venison. In order to avoid confusion, the Rabanan (Rabbis) extended the prohibition of eating milk and meat together to include poultry and venison. However, deriving benefit from poultry mixed with milk was not included in this decree. Therefore, chicken with whey, milk or cheese is permissible in pet food.

Commonly, dog and cat foods contain milk and meat mixtures, and therefore, are forbidden to Jewish pet owners all year round. There is an additional problem for a Jew who is a pet owner during Pesach. The basis for this problem is that Chometz carries with it three "Isurim" (prohibitions) a) Hanaah (benefit), b) Ownership, c) Baal Yimatze (it must be completely removed from a person's premises). A person who owns a pet is obligated to feed it in a timely manner, and due to the prohibition of deriving any pleasure or benefit from Chometz, we are not permitted to use or own pet food containing any type of Chometz on Pesach. **Therefore, it is important to be aware of the prevalent use of the five grains: wheat (germ, cracked, flour, gluten, ground, grouts, middlings, starch), rye, barley (cracked flour), oats (flour, grouts, hulled) & spelt in dog and cat foods today.** Other Chometz ingredients are **Brewer's Yeast, Gluten, Malt, Pasta, Starch and Xanthan Gum.** Almost all dry pet foods list wheat or oats as their first ingredient. This is true for fish food and bird foods as well.

Note: Only clay or wood-based Kitty Litter may be used on Pesach, as others may contain Chometz.

Abound Grain Free Canned Cat Food

Additional Animal-Related Concern:

Often the products that one may purchase at a local zoo to feed the animals contain Chometz and should not be purchased or fed to the animals on Pesach.

Be sure to check the ingredients on the label to be sure there is no obvious chometz ingredients.

FISH FOOD

Fish food and vacation blocks often contain Chometz. The following are acceptable fish food for Pesach:

Pro Balance Vacation Feeder (3 days)

Pro Balance Betta Vacation Feeder (7 days)

Zoo Med Laboratories Giant Plankton Banquet Block Feeder.

Note: Tetra Tropical Slow-Release Feeders, which were acceptable in the past, have started including oatmeal in new formulations and should NOT be used.

TURTLE FOOD

Fluker's Turtle Diet for Aquatic Turtles

Dark, leafy green vegetables (such as collard, mustard and dandelion greens, kale, bok choy, deep green lettuces, parsley).

REPTILES

GECKOS

Crickets and grasshoppers, earthworms, mealworms, silkworms, fruit flies, moths, roaches, calcium and Vitamin D supplementation (Zoo med-Repti Calcium with D3)

ADULT BEARED DRAGONS

They can follow the same diet as Geckos in addition to the following:

Fruit (including kiwi, banana, mango, papaya, apple)

Mixed vegetables (deep leafy greens, squash, carrots, greens)

Calcium and vitamin D supplementation (e.g. Zoo Med Repti Calcium with D3)

BIRDS (PARROTS, PARAKEETS, COCKATIELS, CANARIES, AND MACAWS)

Notes about birds:

Millet and Sorghum can serve as main diet.

Peanuts, Sunflower Seeds, and Safflower Seeds can also be given.

Larger birds, such as parrots, can eat pure alfalfa pellets (make sure it is pure alfalfa since it is common to add grains) or dry dog food, as well as millet, sorghum and sunflower seeds.

Doves, Finches, Pigeons, Sparrows can all have dog food (see dog food list above).

Smaller birds can also have pure alfalfa pellets, crush before feeding, as well as millet (sorghum & Sunflower seeds are too large)

Can be supplemented with cottage cheese, rice cakes (birds like to eat these), small pieces of lean meat, Matzah, berries, eggs, canned baby fruits. All large food should be shredded before serving. These items should be given sparingly.

Avoid the following for all birds: apple and pear seeds, all dairy products (only small amounts of cottage cheese), all fruit pits, avocado, mushrooms and peanuts.

For minerals, they can have oyster shells (calcium) or mineral block.

The greater the variety, the better.

HAMSTERS, GUINEA PIGS, GERBILS & RABBITS

It is best to feed pure alfalfa pellets to these animals. Make sure the pellets are pure alfalfa since it is common to add grains. Dried alfalfa may also be given.

One can also supplement with a mixture of cut-up fruits and vegetables such as: carrots, broccoli, apples, melon, kale, parsley, oranges, celery, dry corn, sunflower seeds, and cabbage. One can also give Matzah. If the animal is not used to eating any of these items, give sparingly.

Guinea pigs will especially benefit from kale, parsley, and oranges.

Pure Timothy Hay is NOT chometz and may be used.

Hamsters especially will benefit from apples. They can also have other fruits and vegetables, matzah, millet, puffed rice, pure alfalfa pellets or hay, raw sunflower and pumpkin seeds.

Guinea pigs will especially benefit from

kale, parsley, and oranges as well as vitamin C added to their diet.

Mice and rats will eat sunflower seeds, greens, vegetables, and potatoes.

MORE PET FOOD INFORMATION

Mixes sold in stores often contain chometz. It is advisable for pet owners to slowly wean their pets off their regular chometz pet food diet. This is best accomplished by mixing regular and Pesach food between one and two weeks before Pesach before switching completely to Pesach food. The ratio of regular and Pesach food should be changed slowly to get the animal used to the new diet. Check with your vet before changing your pet's diet.

Note: One may shop at Petco and PetSmart stores immediately after Pesach.

Meat - O/U certified original factories pack unprocessed raw meat on equipment that is chometz-free throughout the year.

In contrast, ground, cooked or broiled meat and poultry may be processed on equipment used for Chometz products. In addition, local butchers and supermarkets may butcher with equipment used for Chometz and may repack on counters used for Chometz. As such, the following guidelines should be followed: Raw meat sold in any venue, in ORIGINAL FACTORY SEALED PACKAGES, may be used for Pesach when bearing an O/U (even without an O/UP). Meat that is re-packed in a local supermarket or butcher should NOT be used for Pesach unless there is a special Pesach certification in place. For detailed information regarding any specific venue, please contact the local supervision. Ground cooked or broiled meat and poultry (including liver) may ONLY be assumed to be Kosher for Pesach when bearing an O/UP or any other reliable supervision. Exceptions to this rule can be found in the listing in the O/U Pesach Guide: www.ou/kosher.org.

UPDATES (5785-2025)

OU - NEW PRODUCTS

The OU continues to give certification to Passover Quinoa. Quinoa will be available with an OU-P from Goldbaum, Pereg, and La Bonne. They will also have OU-P chia seeds. Goldbaum, La Bonne and Pereg will also be selling quinoa flour.

Kedem has one not Mevushal grape juice. This is bottled in 1.5 liter glass bottles and clearly labeled Non-Mescal. Kedem also has Fresh Pressed Grape Juice as an OU-P grape juice made without sulfites. Kedem will have Sangria Grape Juice and Sangria Sparkling Grape Juice.

Manischewitz will have different types of chocolate covered OU-P plain matzah. Holiday will also have chocolate covered plain matzah. These items are all not Matzah Ashirah. In addition, Barton will have OU-P chocolate covered regular matzah crackers. The Barton item is not Matzah Ashirah. Holiday will also have chocolate covered egg matzah. This item is Matzah Ashirah and labeled as such.

Manischewitz is introducing a line of OU-P Mezonos cookies baked with matzah meal.

Kirkland and Shoprite OU-P Smoked Salmon will also be available. Old Williamsburg will have Smoked Salmon and Herring in Wine Sauce. They also will be making BBQ

Smoked Salmon, Original Smoked Salmon and Maple Smoked Salmon. This year, Old Williamsburg will be making OU-P Meat Beef Jerky in different flavors

The OU position remains that OU supervised extra virgin olive oil can be used without special supervision for Pesach.

The OU position remains that regular tea bags, which are not flavored or decaffeinated, are acceptable for Pesach without special supervision. Swee-Touch-Nee and Wissotsky will continue to have Passover herbal teas. Shoprite will have specially marked OU-P plain tea bags available. In addition, Swee-Touch-Nee will have OU-P decaffeinated tea bags for sale. Some coffee companies add maltodextrin, which is either chametz or kitniyos, to instant coffee. As a result this coffee is not kosher for Passover. Only coffee bearing an OU-P symbol or brands listed in the gray area of the Passover Directory should be used. Both Folger's and Nescafe Taster's Choice instant coffee remain acceptable without special Passover certification. This year we have clarified again that Folger's Decaffeinated instant coffee is also acceptable for Passover without special certification.

WHISKEY ALERT

(Concerning Chometz She'Ovar Alav HaPesach)

AKO: ASSOCIATION OF KASHRUS ORGANIZATIONS

We recommend that Kashrus Agencies and consumers change their policies and only consume those alcoholic beverages which [are free of standard Kosher concerns and] are known to:

1. Be produced by a non-Jewish company or a Jewish-owned company which arranged for the sale of their Chometz
2. Not contain any Chometz, including not having Chometz secondary grains

or malted barley (bourbon and cordials are examples of items that may have these forbidden items), and/or

- Were not aged over Pesach (e.g, vodka).

For a Current List of Possibly Problematic Liquors Due to Chometz She'Avar Alav HaPesach according to extensive research of the cRc please check www.crcweb.org
